

Homework Club

An important component of the afternoon Sunshine Club is Homework Club. For a minimum of one-hour afterschool all students signing in to Sunshine Club who have homework assigned for the evening, should take the time to complete their homework before going outside to play. The students have the opportunity to ask for assistance from the Sunshine staff member assigned to Homework Club, and should be encouraged to do so.

Sometimes, students will choose to go outside and play, putting off their homework until they get home later in the evening. While some parents are comfortable with this arrangement, others would prefer the children do their homework before they play. If you would rather have your child complete their homework during Homework Club, please complete the following form allowing Sunshine Staff to keep your child in to do their work before they can go outside and play. Of course, once a student has completed their homework, they are given the freedom to play.

Family Name: _____

_____ I would like my child to complete his/her homework at Homework Club.

_____ Please give my child the choice to either play or complete his/her work, I will be responsible to see that the homework is completed at home.

Parent Signature: _____ Date: _____
